Si vous le souhaitez, veuillez préciser : **I was doing Bible studies which was organized by the Christian Union. And I participated in some events that were organized by MUSEX, the exchange students society. I was not very active in the university societies. But there are more than a hundred different societies at university and you can really get involved. I was doing lots of sports at university. I was doing it in group fitness classes. But there are also many sports clubs.**

Pourriez-vous détailler des éléments de vie quotidienne utiles aux futurs étudiants (par exemple logement, coût de la vie, conseils particuliers) : In terms of accomodiation there are different possibilities which are all listed on the University of Melbourne website. I personally found my room on flatmates.com.au. I did my search before arriving in Melbourne. But there are also very many students which look for a room once they arrive. In general, housing and life is quite expensive in Melbourne. You can expect about the same price level as in Switzerland. To buy fruits and vegetables it can be less expensive if you go to the Victoria Market which is very close to uni.

In terms of weather, be advised that the weather in Melbourne changes a lot. In winter it can get quite chilly. And in summer it is hot. But in general, you can have four seasons in a day.

Si vous le souhaitez, veuillez ajouter ci-après des recommandations ou des points qui n'ont pas été abordés: I really enjoyed my exchange. The university was great and I found the classes very interesting. I was really in love with the sports offers they had at the university. Also the city is very nice as you can easily walk or bike almost everywhere and the public transportation system is quite good as well. The only thing, I found hard is getting to know Australians.
