

FRIDAY, 1 DECEMBER 2017, 12:30-14:00
AUDITORIUM A2 | MAISON DE LA PAIX

Are we on track to achieving epidemic control of HIV?

On **World AIDS Day**, the Global Health Centre at the Graduate Institute in Geneva hosts a special event organized by the **International AIDS Society (IAS)** to discuss lessons learned and the **way forward to ending the HIV epidemic**. Join the IAS for a conversation with policy and programme experts to learn about the key actions needed for a sustainable and effective HIV response – at the global, regional and local levels.

Achieving HIV epidemic control globally – where are we at?

Peter Godfrey-Faussett, Senior Advisor (Science), UNAIDS

Epidemic control in Switzerland: A focus on the first “90”

Heide Jimenez Davila, President, Groupe sida Genève

The role of drug policies in the context of the HIV epidemic

Michel Kazatchkine, Member of the Global Commission on Drug Policy; Senior Fellow, Global Health Centre, Graduate Institute

Epidemic Control: Considering Community

David Traynor, advisor, The Global Fund to Fight AIDS, Tuberculosis and Malaria

Session Chair

Kevin Osborne, Director, HIV Programmes and Advocacy, International AIDS Society

Refreshments will be served after the event.
