

EXECUTIVE CERTIFICATE

GLOBAL HEALTH DIPLOMACY

NEGOTIATING HEALTH IN AN INTERDEPENDENT WORLD

- Immerse in current and emerging issues of global health
- Participatory modules with leading practitioners
- Combine theory and practice through guest lectures, multi-stakeholder panels, and negotiation exercises
- Connect with mid- and senior level professionals from diverse background and expand your network

Format	Two modules to be completed over a period of one year
Tuition	CHF 9,600 (further details online)
Applications	Rolling admissions (from June 2019)
Contact	globalhealthdiplomacy@graduateinstitute.ch

As health moves beyond the purely technical to become an ever more critical element in foreign policy, security policy and trade agreements, new skills are needed to negotiate global regimes, international agreements and treaties, and to maintain relations with a wide range of diverse stakeholders in this area.

The Certificate of Advanced Studies in Global Health Diplomacy provides the opportunity to learn about current global health issues from renowned experts and diplomats, to reflect upon the interface of global politics and domestic policies, and to navigate complex governance systems to attain better health outcomes.

OBJECTIVES

- Understand the system and method of global health diplomacy and the importance of governance for health
- Develop knowledge on the political determinants of health and engage in related cross-cutting themes
- Learn about instruments, actors and venues of global health diplomacy in a changing international context
- Enhance negotiation skills and practice strategic thinking in policy making on global health

All our modules are highly participatory, drawing on the national and international professional experiences of participants through a multi-disciplinary learning process. They include lectures by internationally-renowned experts and negotiators, case studies, and working groups. Skill-building activities will complement the learning experience.

AUDIENCE

The target audience includes decisions makers and representatives from governments, international organisations, global health initiatives and other stakeholders in global health, such as civil society, foundations, private sector, networks and alliances.

DEGREE

Successful participants will receive an Executive Certificate (Certificate of Advanced Studies) in Global Health Diplomacy from the Graduate Institute of International and Development Studies (15 ECTS). This certificate can be combined with other modules and programmes leading to an Executive Master. Learn more online: graduateinstitute.ch/executive

PROGRAMME CONTENT

MODULE 1 - Global Health Diplomacy

This module is mandatory to all participants. It provides insights into today's landscape of global health diplomacy, organisations and stakeholders involved, venues, instruments and processes. It encompasses the analysis of the dynamics of recent negotiations and highlights current thematic priorities in global health. This module extends over a period of 5 days and can be attended either in English or in French.

MODULE 2 – Elective Topics of Specialization

Participants have the opportunity to explore other issues linked to global health diplomacy, through the choice of four specialised courses among those on offer each year. The list of available specialised courses is regularly updated to follow ongoing global health debates. Please check the website for an up-to-date list of elective topics. Those can include:

- Health Diplomacy and Migration
- Drug Policy, Diplomacy and Public Health
- Global Health Instruments
- Trade, Intellectual Property & Health Diplomacy
- Health Diplomacy and Human Rights
- Engaging in Multi-stakeholder Diplomacy for Health

THE GRADUATE INSTITUTE, GENEVA: A WELL-ESTABLISHED REPUTATION

The Graduate Institute of International and Development Studies is an acclaimed institution of research and postgraduate education dedicated to the study of world affairs, with a particular emphasis on the cross-cutting fields of international relations and development issues. The Institute is longstanding member of the prestigious Association of Professional Schools of International Affairs (APSIA). Through our core activities, we aim to promote international cooperation and make a contribution to the progress of developing societies. More broadly, we endeavor to develop creative thinking on the major challenges of our time, foster global responsibility and advance respect for diversity.

The Global Health Centre (GHC) is the Graduate Institute's research centre on governing the global health domain and global health diplomacy. It is one of the first of its kind and it reflects the wider trend in both the practice and the analysis of global health, which pays increasing attention to the links between health, foreign policy, trade and development. The Centre builds capacity by engaging in research, knowledge translation and diffusion as well as by conducting executive training in global health diplomacy for and with major stakeholders in Geneva and worldwide. The Global Health Centre offers courses in Geneva in collaboration with the Institute's Executive Education Department and in cooperation with partners in other locations.

Executive Education incorporates the Institute's thematic research on important global issues in its programmes for working professionals, and provides a multi-stakeholder platform for forward-looking analysis and professional development.

A UNIQUE INSTITUTION

Geneva is internationally recognised as the '*Health Capital of the World*'. It hosts not only the World Health Organization (WHO) but also more than 80 other organisations active in global health, with which the GHC is highly connected. This makes Geneva an ideal place to study, teach and research global health diplomacy.
