## GENEVA

### In the Heart of International Affairs

With almost half its population hailing from abroad, living in Geneva means experiencing international diversity and crossing cultures daily. And even as it bubbles with cultural and economic activity – home to the headquarters of multinationals, major banks and international trade – Geneva remains easy to navigate, with a dense public transportation network covering a small territory. Beautiful, comfortable and cosmopolitan, it is the one of the world's smallest big cities.

### TANISHA RAYAMADJHI

Wellesley College (Autum 2017 Semester)

"I think the immersion offered by this program into the heart of what working in international affairs really means is unparalleled amongst opportunities available to an undergraduate. The program fosters each student's individual interest through its mentoring program. I only had to mention once that I was interested in global health and there was a meeting organised with someone at WHO within a few days.
