BACKGROUND AND MISSION

The Health Law Institute (HLI) envisions a world where “All health workers will be supported and motivated to provide care commensurate with their skills, in safe environments, under decent working conditions, and empowered to be true stakeholders in the development of sustainable healthcare systems”. Health Law Institute is a Geneva based think tank.

AREAS OF INTEREST

- Global Health Workforce Crisis
- Health workers
- Health systems sustainability
- Health advocacy

HEALTH-RELATED ACTIVITIES

HLI aims to:

- Promote knowledge, understanding and awareness of health worker concerns at international, regional, national and grassroots levels based on independent, evidence-based research, analysis and recommendations.
- Improve health workers’ legal awareness and literacy to enable them better address legal, regulatory and human rights challenges in their day to day work. Decent work for health workers’, who are an essential component of health systems, are crucial in achieving the right to health.
- Provide a non-political and informal platform for dialogue, information sharing and cooperation among relevant stakeholders to advocate for standards, written policy and regulatory procedures on health worker concerns.

GOVERNANCE AND STAFF

The board is composed of Soosmita Sinha, which is president and founder, and Rémy Asper, who is serving as Secretary. The Advisory commission is made up of 5 members, and Alicia Yamin is serving as the chair. Two thematic advisors, one fellow and one volunteer complete the staff of HLI.
