# ANTHROPOLOGY AND SOCIOLOGY

## Master in Anthropology and Sociology

The Master in Anthropology and Sociology is a programme designed for students interested in the comparative study of global issues across national borders and beyond the opposition between centre and periphery. It examines in a critical way international relations and development with the goal of questioning totalising views of globalisation and the conventional North-South divide. Courses in the programme engage with theoretical approaches and methodological tools in anthropology and sociology in order to enable students to explore several key themes: development; the state and international governance; violence and conflict; rural-urban relations; migration; global health and biomedicine; law, market and labour; inequality; gender; environment; the politics of images.

### GENERAL CURRICULUM OUTLINE

4 compulsory courses	<b>4 x 6 = 24 ECTS</b>
11 elective courses <ul style="list-style-type: none"><li>• 7 to 9 courses in the discipline of specialisation (including 1 recommended elective courses)</li><li>• 2 to 4 courses in one or several complementary discipline(s)</li></ul>	<b>11 x 6 = 66 ECTS</b> 42 to 54 ECTS 12 to 24 ECTS
Master dissertation	<b>30 ECTS</b>
<b>TOTAL</b>	<b>90 + 30 = 120 ECTS</b>

**Each student is allowed to spread out the elective courses over semesters 1 to 4, but must take into account the following points:**

- Students must take a certain number of courses in their discipline of specialisation and in complementary disciplines;
- It is obligatory for students to obtain a minimum of 18 ECTS credits each semester;
- Failed courses cannot be repeated during the fourth semester of studies.

The Department of Anthropology and Sociology offers a fast track entry to our doctoral programme on an exceptional basis. A student may be considered for a fast track position if he or she has substantial prior training in Anthropology and/or Sociology (for instance, a BA in either discipline) and has demonstrated excellence in our master's programme. In general, we encourage students to follow our full MA programme of coursework and training before applying to the doctoral programme. We are convinced that this allows them to profit most from our unique approach to the major **global issues** of our time and to carry out their own empirical research based on the solid theoretical and methodological training that we offer as a Department.

Students have the opportunity to spend their third semester at one of the Institute's partner universities as part of an exchange programmes.

## Minor in Anthropology and Sociology

Students who are enrolled in a PhD programme in another department and wish to obtain a minor in Anthropology and Sociology must fulfil the following requirements:

- Submit their application file to the ANSO Head of Department;
- Have a PhD co-supervisor from the teaching faculty of the Department of Anthropology and Sociology;
- Complete 18 course credits including the compulsory **Doctoral Research Seminar I**. The Doctoral Research Seminar II may be taken as one of the electives.

# INTERNATIONAL ECONOMICS

## Master in International Economics

The Master in International Economics combines a focus on economics with the Institute's multidisciplinary teaching in other key subjects to give students a broad view of economic policy. Courses cover trade, development, econometrics, macroeconomics, financial crises, monetary and financial systems, natural resource economics, climate change, regional integration, migration, economic history and more.

→ <https://graduateinstitute.ch/academic-departments/international-economics>

### GENERAL CURRICULUM OUTLINE

8 compulsory courses	8 x 6 = 48 ECTS
7 elective courses	7 x 6 = 42 ECTS
Master dissertation	30 ECTS
<b>TOTAL</b>	<b>90 + 30 = 120 ECTS</b>

**Each student is allowed to spread out the elective courses over semesters 1 to 4, but must take into account the following regulations:**

- Students must take a certain number of courses in their discipline of specialisation and in complementary disciplines;
- It is obligatory for students to obtain a minimum of 18 ECTS credits each semester;
- Failed courses cannot be repeated during the fourth semester of studies.

At the end of the first semester, the student chooses between one of the following tracks:

- International Finance and Macroeconomics
- International Trade
- Development Economics

A trackless master programme is possible if approved by the Head of Department. The student must take 8 compulsory courses: 6 from the core curriculum and 2 to be chosen among the compulsory courses corresponding to the tracks.

Students interested in the **fast track option** must obtain the 90 course credits required by the curriculum by the end of the third semester. In the third semester, students should refer to the **PhD curriculum** and take the following courses:

- **Advanced International Trade A (2 courses 3 ECTS each)** for the PhD in International Economics with a specialisation in International Trade
- **Advanced International Macroeconomics A (2 courses 3 ECTS each)** or the PhD in International Economics with a specialisation in International Macroeconomics
- **Advanced Development Macroeconomics (2 courses 3 ECTS each)** for the PhD in Development Economics

Students can spend their third semester at one of the Institute's partner universities as part of an exchange programme.

It is strongly recommended that all students follow the Department seminar each year:

- Vilfredo Pareto Doctoral Research Seminar - Department Seminar Series

Note: Courses numbered I and II must be taken in sequence. The courses with an A and B designation are independent.

# INTERNATIONAL HISTORY

## Master in International History

The master programme in International History researches and teaches the contemporary world through its different histories and from a multiplicity of perspectives. International history is studied before, between and beyond nations, thereby encouraging multifaceted approaches to current policy, politics, economics and culture.

The main teaching and research themes of the department are:

- The history of international governance and systems;
- The history of transnational actors and actions;
- The history of culture, societies and markets in regional and/or global perspective.

These themes are complementary. The Department's mission is to encourage *dynamic and cross-cutting historical approaches* to understanding, contextualising and situating international politics and policies. Specifically, the Department cultivates *methodological richness* in international, transnational, global, economic, and postcolonial history.

# INTERNATIONAL LAW

## Master in International Law

The Master in International Law provides students with the skills and knowledge necessary for rigorous analysis of contemporary international legal issues. It couples a solid background in the main areas of international law (international law-making, international dispute settlement, history and philosophy of law) with advanced training in one or more specialised fields (including trade and investment, human rights, environment, migration, territorial disputes and international law theory).

### GENERAL CURRICULUM OUTLINE

3 compulsory courses	<b>3 x 6 = 18 ECTS</b>
12 elective courses	<b>12 x 6 = 72 ECTS</b>
<ul style="list-style-type: none"><li>• 8 to 10 courses in the discipline of specialisation</li><li>• 2 to 4 courses in one or more complementary discipline(s)</li></ul>	48 to 60 ECTS 12 to 24 ECTS
Master dissertation	<b>30 ECTS</b>
<b>TOTAL</b>	<b>90 + 30 = 120 ECTS</b>

**Each student is allowed to spread out the elective courses over semesters 1 to 4, but must take into account the following regulations:**

- Students must take a certain number of courses in their discipline of specialisation and in complementary disciplines;
- It is obligatory for students to obtain a minimum of 18 ECTS credits each semester;
- Failed courses cannot be repeated during the fourth semester of studies.

Students interested in the fast track option must obtain the 90 course credits required by the curriculum by the end of the third semester. During the third semester, these students can also take in advance 6 ECTS credits from the 18 ECTS credits of elective courses specified in the PhD curriculum; this course will replace an elective course offered in the master curriculum.

Students have the opportunity to spend the third semester at one of the Institute's partner universities as part of an exchange programme.
